

CALIFORNIA MOBILE BOAT-TO-BOAT SERVICES

(Updated August, 2016)

This list is provided to assist boaters in finding oil and sewage related services to support their clean boating practices. It is not a comprehensive list. It is based on information available through the internet, phone directories, and word of mouth. The California State Parks Division of Boating and Waterways, California Coastal Commission, Keep the Delta Clean Program, and The Bay Foundation do not certify the business practices employed by these companies, nor does it endorse any business or service listed herein.

Mobile boat-to-boat services for bilge and sewage pumpout, steam cleaning and oil change provide an alternative to bilge sewage pumpouts and oil change services at fixed locations in marinas. There are numerous environmental benefits from these services when they are conducted appropriately, including using spill-proof oil extraction, soapless bilge cleaning, and proper waste management and disposal techniques. Where available, these services can be more convenient for boaters, since they may reduce the need to have boats hauled out for service, to bring boats to fixed facilities or to conduct their own maintenance and then transport the wastes to recycling or disposal facilities.

Bilge Pumpout/Cleaning Services

**** Services at Lake Don Pedro Marina (Toulomne County)**

11500 Bonds Flat Rd., La Grange, CA 95329

One pump out station is located on a powered pump out boat with 400 gallon waste water storage. This vessel is located at the Lake Don Pedro Marina, it is driven by marina employees to the mooring location of the vessel and the vessel is pumped out for a minimum \$85 fee. (209) 852-2369.

One pump out station is located on a non-powered floating pump out barge with 3,000 gallons of waste water storage tanks. This barge is usually moored near the Lake Don Pedro Marina at Fleming Meadows. It is available to vessel owner use at times when the main marina pump out stations are busy, out of service and / or at times when low lake levels make access to any of the pump out stations difficult. Free service. (209) 852-2369.
