# Division of Boating and Waterways

To provide safe and convenient public access to California's waterways and leadership in promoting safe, enjoyable and environmentally-sound recreational boating.

Be a Hero. Wear your life jacket and save water.

**CLEAN is COOL** 

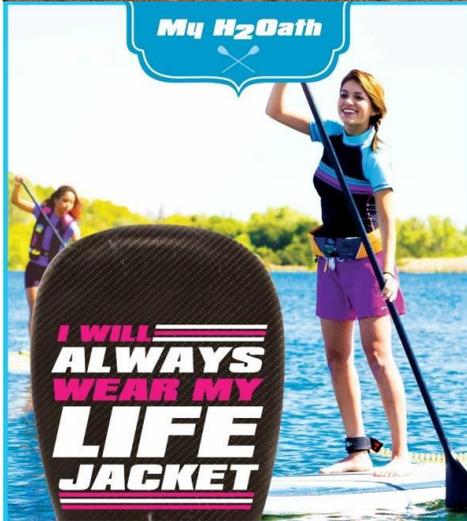

**Dumping raw sewage into our waterways is just plain lame.**  
 Visit the restroom or pump out boat sewage before you leave the dock.  
**If it's your boat, it's your responsibility.**

 **DUMP at the PUMP!**

 For pumpout locations visit [www.BoatResponsibly.com](http://www.BoatResponsibly.com).

**My H2Oath**

**I WILL ALWAYS WEAR MY LIFE JACKET**

*Save the waters you love*

**Pump, Don't Dump**

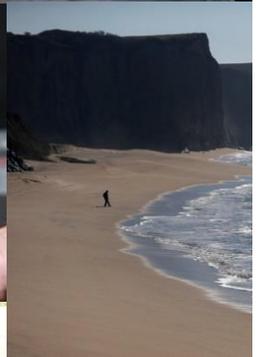

**Does wear life jackets. Now it's your turn.**

**It's your boat. It's YOUR responsibility.**

# Introduction

The California Boating and Waterways Commission (Commission) is required to prepare and submit a triennial program report to the Governor, the Assembly Committee on Water, Parks and Wildlife, the Senate Committee on Natural Resources and Water, the Senate Committee on Appropriations, and the Assembly Committee on Appropriations. This report must be developed with support and assistance from the California State Parks Division of Boating and Waterways (DBW). As detailed in Harbors and Navigation Code (HNC) Section 82.3(g)(1), this report addresses the status of any regulations adopted or being considered by the DBW, and any loan or grant that has been or is being considered for a determination of eligibility.

The reporting period of this document is January 1, 2013 through June 30, 2017. Some programs are on a state fiscal cycle, some are on a federal fiscal cycle and some are on a calendar year cycle. The data for each are collected accordingly. Information in each subsequent report will begin where the previous report ended to prevent either gaps or duplication.

The *California Boating and Waterways Commission Triennial Program Report* combines and details specific DBW programs as required by Harbors and Navigation Code (HNC) §82.3(g)(1).

The Commission would like to thank the DBW for its assistance in creating this report.

*Dana Point Marina*

## **About the Commission**

The Commission is authorized by the HNC to advise the DBW and comment on all matters within its jurisdiction, and comment on all boating facility loans and grants proposed by the Division.

Seven commissioners appointed by the Governor and confirmed by the State Senate comprise the Commission. Each commissioner's term runs for four years. The HNC specifies that in making appointments to the Commission, the Governor shall give primary consideration to the geographical location of the residences of members as related to boating activities and harbors. One member is required to be a private small craft harbor owner and operator, one member must belong to a recognized statewide organization representing recreational boaters, and one member must be an officer or employee of a local law enforcement agency responsible for enforcing boating laws.

## **About the Division of Boating and Waterways**

The DBW was established in 1957 upon enactment of legislation supported by the recreational boating community. That legislation established a state boating agency dedicated to all aspects of recreational boating and a special account, Harbors and Watercraft Revolving Fund, to fund the department's activities.

In July 2013, the DBW merged with the California Department of Parks and Recreation (DPR). The merger was part of Governor Brown's 2012 Reorganization Plan to consolidate and simplify the state's organizational structure. The plan added efficiencies by combining and streamlining duplicative functions, thereby reducing costs and saving taxpayer dollars. The merger left intact the major organizational structure of Boating and Waterways within the DPR, including its principal mission, functions and funding for boating constituencies across the state.

## Legislation 2012 – 2017

In 2013, the DBW merged with the DPR and became a division. At the same time, the Commission's roles and responsibilities evolved to better align with the division's new placement. As a result, several legislative changes were necessary to create and update statute that reflected the merge of these two departments and the changes for the Commission. The following legislation addressed these changes:

### **Assembly Bill 737 (Chapter 136, Statutes of 2012)**

This enabling legislation reorganized the Department of Boating and Waterways into a division within DPR. Additionally, this bill changed the responsibility and authority of the Commission to an advisory role.

### **Senate Bill 820 (Chapter 353, Statutes of 2013)**

The Governor's Reorganization Plan No. 2, provided conforming name changes to properly reflect DBW's new position within DPR, and further modified duties between the Division and the Commission, including removing requirements for Commission approval prior to the Division making certain transfers, loans, or grants under various programs and other proposals, as specified.

Below is further legislation that passed during the reporting period of this report:

### **Assembly Bill 383 (Chapter 76, Statutes of 2013)**

This bill provided technical cleanup language to the HNC.

### **Assembly Bill 8 (Chapter 401, Statutes of 2013)**

This bill extended the increased vessel registration fee, enacted by AB 118 (Chapter 750, Statutes of 2007) from 2016 to 2024.

### **Senate Bill 1162 (Chapter 67, Statutes of 2014)**

This bill reclassifies several boating-related violations as infractions instead of misdemeanors.

### **Senate Bill 1424 (Chapter 628, Statutes of 2014)**

This bill modified the land grant to the city of Martinez for the Martinez Marina and surrounding properties.

### **Senate Bill 941 (Chapter 433, Statutes of 2014)**

This bill required the DBW to develop a vessel operator education program by January 1, 2018. This program, phased in over eight years, requires vessel operators to pass an exam and be issued a vessel operator card in order to operate a motorized vessel in California.

### **Assembly Bill 1162 (Chapter 75, Statutes of 2015)**

This bill requires children under the age of 13 to wear life jackets when on board a moving vessel regardless of the length of the vessel.

### **Assembly Bill 1323 (Chapter 645, Statutes of 2015)**

This bill authorized state, city, county or other public entities, after ten days, to remove, destroy, or dispose of marine debris on public waterways, public beaches, state tidelands, or submerged lands under their jurisdiction, as defined. Additionally, this bill defined marine debris as, “a vessel or part of a vessel, including a derelict, wreck, hulk or part of any ship or other watercraft or dilapidated vessel that is unseaworthy and not reasonable fit or capable of being used as a means of transportation by water”. This bill also required the State Lands Commission to adopt best management practices and requirements for salvage by January 1, 2017.

### **Assembly Bill 1317 (Chapter 352, Statutes of 2013)**

This bill changed the name of the Department of Boating and Waterways to the Division of Boating and Waterways.

# Status of Regulations

## California Boater Card Program

On September 18, 2014, Governor Jerry Brown signed SB 941 into law creating the mandatory boating education program and certification requirement known as the California Boater Card Program (CBC). This program requires operators of motorized vessels to take an approved boating safety course, pass an approved exam and obtain a vessel operator card. The program is being phased in by age and began on January 1, 2018.

Because the CBC is entirely new for California, current regulations do not reflect the working processes necessary to implement the program. DBW is now in the process of rulemaking for regulations.

## Programs and Grants Identified for Regulations

The following DBW programs and grants need new or updated regulations. The division has prioritized the development of regulations.

- *Abandoned Watercraft Abatement Grants (page 20)*
- *Beach Erosion Control/Public Beach Restoration Grants (page 43)*
- *Vessel Pumpout Grants (page 37)*
- *Floating Restroom Grants (page 37)*

# Status of Loans and Grants

## Boating Safety and Boating Law Enforcement Financial Aid Grants

Boating Safety and Enforcement Financial Aid Grants provide state financial aid to local agencies' qualified boating safety and enforcement programs pursuant to Section 663.7 of the HNC. The purpose is to augment a participating agency's revenues for boating safety and enforcement activities when an agency incurs costs that exceed actual vessel taxes received by the county for boating safety and enforcement activities. The financial aid program is not intended to fund fully an agency's boating safety and enforcement activities, and agency participation in the program is voluntary.

<b>Boating Safety and Boating Law Enforcement Financial Aid Grants</b>

\*These agencies are new participants to the program.

## Boating Safety and Boating Law Enforcement Equipment Grants

To meet the DBW's objective to provide safe public access to safe and enjoyable boating on the waterways of California, and in according the HNC Section § 61.4, this grant program provides equipment funding to local law enforcement agencies. To qualify, these agencies must demonstrate that their high level of transient boat use and low resident boat population results in an insufficient tax base from boating sources to support an adequate and effective marine patrol.

The following tables provide information on grant awards as well as on applications considered, but not awarded. Each are broken down by fiscal year.

### Grants Awarded

#### 2013/2014

Agency	Equipment Funded	Amount
Amador County Sheriff's Department	Patrol Boat	\$75,000
Big Bear Municipal Water District	Patrol Boat	\$80,000
Butte County Sheriff's Department	Patrol Boat	\$80,000
Casitas Municipal Water District	Patrol Boat	\$80,000
City of Morro Bay Harbor Department	Trailer	\$11,000
Colusa County Sheriff's Department	Miscellaneous Equipment	\$17,600
Contra Costa County Sheriff's Department	Miscellaneous Equipment	\$35,000
Del Norte County Sheriff's Department	Miscellaneous Equipment	\$61,000
Imperial County Sheriff's Department	Patrol Boat	\$75,000
Los Angeles County Sheriff Department	Miscellaneous Equipment	\$72,000
Oceanside Harbor Department	Miscellaneous Equipment	\$65,000
Placer County Sheriff's Department	Miscellaneous Equipment	\$40,500
Sacramento County Sheriff's Department	Miscellaneous Equipment	\$65,000
San Joaquin County Sheriff's Department	Miscellaneous Equipment	\$55,000
Solano County Sheriff's Department	Miscellaneous Equipment	\$45,000
Tulare County Sheriff's Department	Miscellaneous Equipment	\$5,900
Ventura Harbor Department	New Engines	\$37,000
<b>Total</b>		<b>\$900,000</b>

**2014/2015**

<b>Agency</b>	<b>Equipment Funded</b>	<b>Amount</b>
Alameda Police Department	Patrol Boat	\$80,000
Butte County Sheriff	Remotely Operated Underwater Vehicle, Dive Gear	\$80,000
Calaveras County Sheriff	Dive Gear	\$32,000

Ventura Port District	Engine Replacement	\$45,557
<b>Total</b>		<b>\$1,200,000</b>

**Applications Considered****2013/2014**

All applicants were awarded. No denials.

**2014/2015**

The following applications were denied due to insufficient funding for second and third priority pursuant to 14 CCR §6594.5 subsection (b), (2) and (3):

- City of Alameda Police Department
- City of San Rafael Police Department
- County of Tulare, Parks and Recreation
- El Dorado County Sheriff's Department
- Humboldt County Sheriff's Department
- Los Angeles County Fire Department
- Plumas County Sheriff's Department

**2014/2015 – Con't**

- San Bernardino County Sheriff's Department
- Santa Clara County Parks and Recreation
- Tuolumne County Sheriff's Department
- Yolo County Sheriff's Department

**2015/2016**

The following applications were denied due to insufficient funding for second and third priority pursuant to 14 CCR §6594.5 subsection (b), (2) and (3):

- Calaveras County Sheriff's Department
- City of Lake Elsinore
- City of Morro Bay Harbor Department
- City of Santa Monica Police Department
- Colusa County Sheriff's Office
- County of Ventura Harbor Department
- Imperial County Sheriff's Office
- Kern County Parks and Recreation Department
- Los Angeles County
- Napa County Sheriff's Office
- Orange County Sheriff's Department
- Pittsburg Police Department
- San Bernardino County Sheriff's Department
- San Joaquin Sheriff's Department
- Sonoma County Sheriff's Office
- Tehama County Sheriff's Office
- Tuolumne County Sheriff's Office
- United Water Conservation District
- Ventura Port District

**2016/2017**

The following applications were denied due to insufficient funding for second and third priority pursuant to 14 CCR §6594.5 subsection (b), (2) and (3):

- City of Santa Barbara Waterfront Department
- California Department of Parks and Recreation – Inland Empire Lake
- Folsom Police Department
- Fresno County Sheriff's Department

## Boating Safety and Boating Law Enforcement Training Grants

Under HWC Sections 61.4 and 61.6, DBW's Marine Law Enforcement Training Program funds statewide training courses to local law enforcement officers, harbor patrol officers, lifeguards and other first responders who work in a marine patrol environment. Statewide training provides consistent enforcement of boating laws on all California waterways. With more than 100 local government agencies providing boating law enforcement in California, the purpose of the training program is to provide comprehensive, current, reliable and effective training courses.

### Boating Law Enforcement Training Courses - 2013

## Abandoned Watercraft Abatement Fund Grants

Currently, the DBW administers two programs vital to the state's efforts in reducing and eliminating abandoned recreational vessels: Abandoned Watercraft Abatement Fund (AWAF) for abandoned recreational vessels and hazardous marine debris, and the pro-active Vessel Turn-In Program (VTIP) created to intercept recreational vessels before they are abandoned.

These programs provide local assistance grants to public agencies for the abatement, removal, storage and disposal of abandoned or surrendered recreational vessels, and for the removal of other water hazards on California's waterways.

The removal of abandoned vessels, water hazards, and the Vessel Turn-In Program improves public and navigational safety, and reduces environmental damage. AWAf and VTIP are legislatively mandated by HNC Section §526 – [abandoned vessels under specified conditions may be sold or disposed of.] The AWAf is funded through DBW's HWRF account and fines (Penal Code Section §1463.001 – fines deposited with county treasurer) imposed and collected. Pursuant to HNC Section §525 (d) (1)(A), 80 percent will be deposited into AWAf. The remaining 20 percent will go to the agency that issued the citation. VTIP is funded through AWAf. There is a 10 percent matching contribution required of agencies that participate in these programs.

A new grant process developed in 2014, titled the "Surrendered and Abandoned Vessel Exchange (SAVE)" provides flexibility for applicants to utilize grant funds for either purpose, removal or turn-in. Beginning in FY 14/15, (see Page 20) and moving forward, the DBW will utilize this dual process to award grant funds.

The following tables provide information on grant awards as well as on applications considered, but not awarded. Each are broken down by fiscal year.

## Grants Awarded

2013/2014

Agency	Program	Amount
Berkeley, City of	AWAF	\$15,000
Channel Islands Harbor, County of Ventura	AWAF	\$25,000
Contra Costa County Sheriff's Department	AWAF	\$90,000
Dana Point Harbor Department (Orange County)	AWAF	\$10,000
Long Beach Marine Bureau, City of	AWAF	\$8,000
Los Angeles County Sheriff's Department	AWAF	\$30,000
Morro Bay Harbor Department, City of	AWAF	\$9,000
Moss Landing Harbor District	AWAF	\$30,000
Noyo Harbor District	AWAF	\$6,000
Orange County Sheriff's Department	AWAF	\$25,000
Port San Luis Harbor District	AWAF	\$49,500
Sacramento County Sheriff's Department	AWAF	\$85,000
San Diego Lifeguard Service, City of	AWAF	\$60,000
San Joaquin County Sheriff's Office	AWAF	\$32,000
San Leandro Marina, City of	AWAF	\$49,000
San Mateo County Harbor District: Oyster and Pillar Point Marinas	AWAF	\$53,000
Santa Barbara Waterfront Department, City of	AWAF	\$10,000
Santa Cruz Port District	AWAF	\$8,000
Solano County Sheriff's Office	AWAF	\$47,500
Vallejo, City of	AWAF	\$40,000
Ventura Port District	AWAF	\$5,000
Waterford, City of	AWAF	\$13,000
Berkeley, City of	VTIP	\$5,000
Contra Costa County Sheriff's Department	VTIP	\$8,000
Dana Point Harbor Department, Orange County	VTIP	\$5,000
Long Beach Marine Bureau, City of	VTIP	\$5,000
Los Angeles County Sheriff's Department	VTIP	\$8,000
Monterey, City of	VTIP	\$4,000
Morro Bay Harbor Department, City of	VTIP	\$5,000
Orange County Sheriff's Department	VTIP	\$5,000
Richardson's Bay Regional Agency	VTIP	\$8,000
Sacramento Police Department	VTIP	\$4,000
Santa Cruz Port District	VTIP	\$5,000
Solano County Sheriff's Office	VTIP	\$8,000
Ventura Port District	VTIP	\$5,000
<b>Total</b>		<b>\$775,000</b>

San Francisco Marina, Parks and Recreation	SAVE	\$100,600
Santa Barbara Sheriff Office	SAVE	\$14,700
Sausalito Police Department	SAVE	\$129,800
Solano County Sheriff's Department	SAVE	\$98,400
Sonoma County Sheriff's Office	SAVE	\$21,100
Ventura Port District	SAVE	\$10,000
<b>Total</b>		<b>\$1,750,000</b>

## Applications Considered

### 2013/2014

- Port San Luis – Application was denied due to lack of funding.
- City of Santa Barbara – Application was rescinded.

### 2014/2015

All applications were awarded.

### 2015/2016

- Napa County Sheriff's Department declined grant for fiscal year 2014/2015. The amount of \$12,700 was added to Sacramento County Sheriff's Department and \$50,000 was added to the Oakland Police Department.
- No other applications were denied for 15/16.

### 2016/2017

- City of Brisbane, Moss Landing Port District, Oakland Police Department, Port of San Francisco, and Port of San Luis Harbor District were denied for failing to utilize 50% of open grants.
- No other applications were denied for 16/17.

## Public Small Craft Harbor and Private Recreational Marina Loans

Under HNC Sections 65-77.1, the DBW is authorized to provide leadership and funding to develop or rehabilitate boating facilities, participate in federal programs for boating facility improvement, and for public beach restoration and erosion control. The DBW Boating Facility Program includes loans and grants.

### Public Small Craft Harbor Loans and Private Recreational Marina Loans

These loan programs provide funding to plan, design, renovate and construct small craft harbors, marinas, and dry storage facilities.

Since 1958, the Division of Boating and Waterways has initiated, funded and provided guidelines for the development of public and private marinas. In fact, most of the facilities along California's coastline were either initially funded or improved by this loan program.

DBW currently has a loan portfolio of approximately \$200 million from 67 loans to 30 public and private entities. These loans generate over \$5.4 million in annual interest revenue to the HWRF; repayments provide more than a quarter of DBW's annual revenue stream.

#### **Public Marinas 2013 - 2017**

Three applications for \$31,600,000 were submitted, one loan agreement was entered for \$5,400,000.

#### **Private Marinas 2013 - 2017**

Two applications for \$8,400,000 was submitted. One loan agreement was entered for \$4,200,000.

**PUBLIC SMALL CRAFT HARBOR LOANS 2013-2017**

<b>PROJECT NAME</b>	<b>FUNDING AMOUNT</b>	<b>GRANTEE NAME</b>	<b>PROJECT DESCRIPTION</b>	<b>FUNDING YEAR</b>	<b>FUNDING SOURCE</b>

## Boat Launching Facility Grants

Since 1958, the DBW has funded, designed and provided guidelines in the development and rehabilitation of recreational boat launching facilities to provide boater access to California's ocean, rivers and lakes. Most boat facilities in California were either initially funded or were improved by boating facility development programs.

During fiscal years 2013/2014, 2014/2015, 2015/2016, and 2016/2017, 54 applications for \$82,308,406 were submitted; 24 grant agreements were entered for \$24,655,000.

## Non-Motorized Boat Launching Facility Grants

The Non-Motorized Boat Launching Facility Program creates or improves public access to address the rapidly growing paddling community (kayaks, rafts, stand-up paddleboards, canoes, etc.).

During fiscal years 2014/15, 2015/16, and 2016/17, fourteen applications for \$5,270,516 were submitted; seven grant agreements have been entered for \$2,550,000. No grants were issued in FY 2013/14.

<b>NON-MOTORIZED BOAT LAUNCHING FACILITY GRANTS 2014-2015</b>				
<b>PROJECT NAME/FILE</b>	<b>FUNDING</b>	<b>GRANTEE</b>	<b>PROJECT DESCRIPTION</b>	<b>FUNDING</b>

## Ramp Repair and Modification Grants

Ramp repair and modification grants quickly restore safe and convenient public boating access that has been damaged by wind, waves, floods, accidents, wildfires or made inaccessible due to drought conditions, etc.

During fiscal years 2014/15, 2015/16, and 2016/17, ten applications for \$2,394,610 were submitted to the DBW. Four grants were awarded totaling \$379,600. No grants were issued in fiscal years 2013/14 and 2016/17.

## Federal Clean Vessel Act Grants

Since the Clean Vessel Act was enacted in 1992, the DBW has been the state entity responsible for administering this federal program to provide grant funding for infrastructure improvements. Examples of projects include: vessel sewage waste disposal through pumpout and dump station construction, replacement, and operations, as well as providing boater education focused on keeping sewage out of our waterways.

During this reporting period, the DBW has funded the following:

- **Pumpout Facilities:** Thirteen applications for \$339,893 were submitted; nine grants were awarded for \$141,970.
- **Operation and Maintenance:** Two applications for \$22,300 were submitted; one grant agreement was awarded for \$14,000.
- **Floating Restrooms:** Three applications for \$2,865,582 were submitted; all were awarded.
- **Education and Outreach:** Five applications for \$1,253,358 were submitted; all were awarded.

Tables on the following two pages identify individual applicants, projects, and grant awards.

## Public Beach Erosion Control & Public Beach Restoration Grants

Under the HNC, the DBW, to the extent that funds are available, is responsible for studying problems of beach erosion and to construct and/or fund projects to stabilize beaches and shoreline areas. This can be accomplished either through placement of hard structures like seawalls, groins, or rock revetments (under the Public Beach Erosion Control Program), or through strategically engineered placement of sand in concentrated areas to protect vital public infrastructure (under both Beach Erosion Control and Public Beach Restoration programs depending on funding source and partners).

The division must partner with other government agencies to study, plan and construct shoreline erosion control projects, and to actively pursue and promote federal and local partnerships to share the costs of beach restoration projects. These partnership activities include but are not limited to providing local assistance grants to public agencies through an annual application process. DBW also funds ongoing project management for the Coastal Sediment Management Workgroup, a federal/state partnership that works with local and regional governments to document coastal erosion issues and potential solutions. These collaborations usually involve cost-sharing between the DBW and its partners; pooling financial resources to achieve common objectives.

The Public Beach Restoration Fund (PBRF) was established in 1999 by Assembly Bill (AB) 64, Author, (Ducheny, Ch. 798, Statutes of 1999) as a source of financial support for beach restoration projects under the Public Beach Restoration Act. Sixty percent of the money in this fund is to be available for projects south of the point at which the Pacific Ocean meets the border between the counties of Monterey and San Luis Obispo, while 40 percent is to be available for projects north of that point.

- **Beach Erosion Control:** Eleven applications for \$2,180,000 were submitted from Fiscal Year 2013/14 through Fiscal Year 2016/17; grant agreements have been entered for all of them.
- **Public Beach Restoration:** Twelve applications for \$15,700,000 were submitted from Fiscal Year 2013/14 through Fiscal Year 2016/17; nine grant agreements have been entered for \$5,450,000. No applications were requested in Fiscal Year 2013/14.

## Quagga and Zebra Mussel Infestation Prevention Grants

The Quagga and Zebra Mussel Infestation Prevention Grant Program was established by Assembly Bill (AB) 2443, Author (Williams, Ch. 485, Statutes of 2012), with the first grants awarded by DBW to grantees in FY 2014/2015. The program provides funding to assess the vulnerability of, and develop implementation programs to prevent the introduction of quagga and zebra mussels in California's reservoirs. Funding for this program originates from the Quagga and Zebra Mussel Infestation Prevention Program fee collected by the California Department of Motor Vehicles and transferred into the HWRF.

Quagga and zebra mussels are non-native dreissenid mussels introduced in the United States from Europe in 1988. These mussels pose an immediate and significant threat to California's water supply, flood control, power generation, aquatic recreation infrastructure and the ecological integrity of our waterways.

Eligibility criteria for the program requires that: 1) applicants own or have management authority over the recreation component of the reservoir; 2) the reservoir must be free from introduced quagga and zebra mussels; and 3) the reservoir must be open to the public for recreational activities.

This program involves a high degree of interagency collaboration and coordination.

Monitoring locations are dependent on the grantee, water quality parameters that are suitable for colonization, water depth, and high-risk areas like public boat launch ramps. Big Bear Municipal Water District, one of the program's past grantees, has a monitoring plan that is implemented weekly when water temperatures range from 60.8-66.2 °F and are designed to increase the likelihood of an early detection of veligers in the reservoir.

In accordance with Harbors and Navigation Code Section 676, DBW provides funding to other state agencies such as California Department of Fish and Wildlife for infestation prevention efforts and inspection programs of quagga and zebra mussels, and the California Department of Food and Agriculture for the eradication of invasive weed, Hydrilla and border inspection efforts of quagga zebra and mussels. Funding is provided annually.

The guiding statutes for the QZ Grant Program are found in Harbors and Navigation Code Sections 675-677, Fish and Game Code Sections 2302-2302, and Vehicle Code Sections 9853, 9860 and 9863. Regulations for this program are found in California Code of Regulations, Title 14, §5200-5211 and §5300-5307.

## Aquatic Center Grants

Each year through an Aquatic Center Grants Program, the DBW directly provides on-the-water training to more than 60,000 beginning and intermediate boaters at 48 locations throughout the state. Funded through the federal Sport Fish Restoration and Boating Trust Fund, the Program works with colleges and universities, cities and counties and non-profit organizations dedicated to boating safety education. **Since 2013, the division has awarded \$6.2 million for on-the-water boating safety education.**

Introducing boating to underserved communities is an important aspect of the aquatic center grant program. Scholarship grants provide basic, enjoyable on-the-water classes to youth and adults who are not able to afford them. In 2016, 34 percent of the people receiving aquatic center boating safety education came from underserved populations.

The Program also provides supplemental funding for instructor training, National Safe Boating Week (NSBW) events that occur every May, and boating equipment courses. In 2016, over 5,000 Californians learned about boating safety at 21 NSBW events from Redding to San Diego.

DBW supports NSBW events and approved curriculum with these grants for boating safety scholarships, life jackets, boating equipment and training. Many of the centers serve youth, special needs, and underserved groups with safe boating activities such as kayaking, sailing, personal watercraft, wakeboarding and waterskiing. The aquatic center grant program operates a rigorous audit program including intermittent site visits, review of invoices and curriculum, and stringent review during the grant application process.

The following tables provide information on aquatic center grants awarded and applications that were considered but not awarded (“n/a” includes periods without grant requests or aquatic centers that left the program).
