Fishing in the City Program - Sacramento Metro Area

<https://www.wildlife.ca.gov/Fishing-in-the-City/Sac>

The eight rotating fishing line recycling stations mentioned below are provided during the Fishing in the City Program lead by the CA Department of Fish and Wildlife learn to fish clinics. By providing these rotating stations during the learn to fish clinics, we're working with people to provide practical ways new and beginning anglers can become responsible anglers and stewards of their local parks. The goal is to establish positive habits early on as these young anglers grow.
